EDUCATION

University of Toronto — Rotman Commerce

Toronto, ON

Bachelor of Commerce | Specialist in Finance & Economics

Expected June 2027

- Dean's List (2024, 2025) · Entrance Scholarship
- Case Competition Circuit: Finalist at 2 national undergraduate business case competitions; led quantitative sections.

PROFESSIONAL & LEADERSHIP EXPERIENCE

Sobeys

Mississauga, ON

Supply Chain Analyst Intern

May 2025 – August 2025

- **Operational Throughput Optimization:** Analyzed regional distribution-centre throughput across 3 regions; isolated a critical hand-off delay and designed a SQL-backed routing change projected to cut average lead time by 12%.
- **Data Synthesis & Dashboards:** Wrote SQL queries to join and clean shipment, inventory, and labor tables; compiled findings into a Tableau dashboard used by 5 regional operations managers.
- **Client & Staff Engagement:** Interviewed 10 warehouse operators and district coordinators to map workflows and ground quantitative modeling assumptions.

Rotman Commerce Consulting Group

Toronto, ON

Project Lead (Student-run)

September 2025 – Present

- **Boutique Growth Strategy:** Led a 3-person consulting team on an 8-week market-entry engagement for a regional food-delivery startup; formulated MECE issue trees to structure workstreams.
- **Quantitative Modeling:** Built a bottoms-up demand model (demographics → addressable households → order frequency) that anchored the final geographic expansion recommendation.
- **Stakeholder Management:** Managed weekly client check-ins and presented a 20-slide final recommendation deck to the founding leadership team.

TD Bank

Toronto, ON

Retail Operations Co-op

May 2024 – August 2024

- **Process Review:** Mapped the branch account-opening workflow and flagged 3 redundant steps, reducing average cycle time.
- **Performance Reporting:** Compiled weekly operational and financial performance reporting metrics for the district manager.

PROJECTS & TECHNICAL LEADERSHIP

AI-for-Research (Open Source Project) — Developer

- Built and open-sourced an AI-native workflow tool that queries APIs to generate cited company research briefs on GitHub: github.com/priyaraman/ai-for-research.
- Deployed a working web-based live demo on Vercel: ai-for-research-demo.vercel.app.
- Contributed to and merged 3 feature pull requests in the parent ai-agent-framework repository (1200+ stars).

SKILLS & FRAMEWORKS

Tools & Languages: SQL (PostgreSQL), Tableau, Excel (Financial Modeling), Python, Git

Business Frameworks: MECE, Market Entry, Operational Efficiency, Issue Trees

AI Tooling: Claude API, ChatGPT, Perplexity, Prompt Engineering
