

PRIYA RAMAN

priya.raman@email.com | linkedin.com/in/priyaraman | (778) 555-0142 | Vancouver, BC

EDUCATION

Simon Fraser University — Beedie School of Business

Burnaby, BC

Bachelor of Business Administration — Joint Major, Business & Computing Science

Expected 2027

- GPA 3.8/4.33 · Dean's Honour Roll (2024, 2025) · Beedie Entrance Scholarship
- Relevant coursework: Strategy, Managerial Economics, Financial Modelling, Data & Decisions, Operations Management
- Selected for the SFU Management Consulting Club Project (MCCP) — competitive case-method cohort

EXPERIENCE

Pacific Blue Cross

Burnaby, BC

Strategy & Operations Co-op (8 months)

Jan 2025 – Aug 2025

- Analyzed claims-processing throughput across 3 lines of business, isolated the slowest hand-off, and modelled a routing change projected to cut average turnaround ~12% — presented to the VP of Operations.
- Built a self-serve dashboard adopted by 4 regional managers for their weekly operations review, replacing a manual spreadsheet that took a day to compile.

Vancity Credit Union

Vancouver, BC

Member Services Analyst (part-time, during studies)

May 2024 – Dec 2024

- Surfaced a recurring drop-off in the digital onboarding flow from 1,500+ member interactions and proposed three fixes, one of which was piloted branch-wide.

LEADERSHIP & ACTIVITIES

VP Casework — SFU Beedie Consulting Group

- Trained a 20-person cohort on issue-tree structuring and market sizing; ran weekly mock cases and built the club's first reusable case-prep library.

National Undergraduate Case Competitions — Finalist ×2

- Led the quantitative section (market sizing + profitability) for a 4-person team; top-4 finish at two national competitions against 30+ schools.

PROJECTS & APPLIED AI

CaseForge — Self-improving case-interview coach on a markdown agent harness

- Built a feedback-routing system that folds each correction into the right layer (rubric, voice, or prompt); across 12 practice sessions, structured-scoring accuracy rose from 60% to 90%.
- Architected it to load only the files each task needs, cutting tokens per session ~10× and keeping practice runs effectively free on a student budget.

SKILLS & CERTIFICATIONS

Analysis & Tools: Excel (financial modelling), SQL, Python, Tableau, Power BI

Methods: Market sizing, issue trees / MECE, profitability & market-entry frameworks

Certifications: Google Data Analytics · Bloomberg Market Concepts (BMC)

Languages & Interests: English, Cantonese (conversational) | Competitive rowing | Teaching financial literacy to high-schoolers
